

GIRNHILL INFANT SCHOOL, STEM DAY. FRIDAY 7TH MAY 2021

Your Task:

Physical Science – Paper Helicopters.

- Find out how to make paper helicopters fall at different speeds.
- plan and draw a diagram of your paper helicopter. Label the sizes of the rotor blades you will use for each helicopter.
- Collect the materials you will need, including card, craft paper, paper clips and a stopwatch.
- Create your paper helicopter to look like your plan.
- check that your paper helicopter meets the criteria.
- Present and explain your findings.
